

PRESS RELEASE
September 1, 2026

Steering Legal advises and supports five partners of ABC Justice, a professional civil partnership of judicial officers (commissaires de Justice), in their professional separation.

Steering Legal (David Lussigny, Partner, and Alexa Ivanov, Associate) acted alongside five partners of ABC Justice, a professional civil partnership of judicial officers, in the context of their professional separation.

This separation took the form of a transfer of the presentation rights held by ABC Justice relating to its four judicial offices (two in Paris, one in Le Vésinet, and one in Lagny-sur-Marne) to two newly created limited liability professional practice companies, namely B² Justice (Buzy Braun & Associés) and Adam & Associés.

This transaction was approved by order of the Keeper of the Seals, Minister of Justice, dated July 23, 2026, and has been effective since August 1, 2026.

Steering Legal acted as joint counsel for the five ABC Justice partners, supporting them on the legal terms applicable to their professional separation and ensuring the drafting of the required deeds.

This engagement was made possible by the team's mastery of the regulations governing the profession of judicial officer, and its expertise in supporting the structuring, acquisition, and transfer of offices, as well as merger and, where applicable, demerger transactions involving judicial officer companies.
